K goes out ...

(:32).

Q: How do you use the headphones do you use music

K- No, the way it is.

We use your mobile phone for GPS if you call it that way. (:34). Through your mobile we go through the process of reaching your soul, what you call energy center, what you call the soul. what we call the energy center of your body and that will have the command of what you do in Linz. ?? the machine. We can do that directly through the headphones and what we want to do.

The new system in Linz doesn't have walls, it's not the EU you seen, The T which we use now is not what you've seen ..

(:36).

we can reduce the field strength resistance of what you have as a brain to extend beyond and then it takes. They'll tried many times even to move an atom, they are very proud they moved an atom, but if you are trying to move an object you have a lot of problems when you move a magnet you don't have that problem ..

(:38).

You use headphones to find the position of your energy center, then you switch your music off, then we take over. We deliver what we do in Linz

you find the center point with the stereo headphones then turn off the music and Linz takes over ..

(:40).

Q: .. Do you have to have an intention
